PUBLISHED BY THE SENIOR CLASS

JONATHAN DAYTON HIGH SCHOOL

SPRINGFIELD, NEW JERSEY

THE GOLD RUSH
1949 is the year that we, the gold-seekers, reached our long sought for goal. After four years of searching, we finally came into fabulous wealth. We had our hardships, failures, and successes the same as our predecessors, as well as our fun and entertainment. All these are recorded in our log for future reference. The last 49'ers were seeking gold in California and have won fame through the pages of history; Regional's 49'ers won their fame and fortune by reaching their long awaited goal — graduation.
Paul Rondeau

DEDICATION

At one time or another, every student at Regional has walked past the wood shop and heard the busy whine of the saw and the sound of rapping hammers. Behind this door is one of the teachers who has endeavored to give Regional the great name and reputation it has.

His woodworking skills have proved themselves many times over. The new look shelves in our library, the recording cabinet in the auditorium, the sign along the driveway which greets the visitor's eye, and many other items in Regional have been made by him.

If it were not for him, our Senior Play would be much the worse for setting and scenery. Through his untiring efforts each year, every senior class is able to have the best stage setting possible.

In appreciation of the many things he has done for our class, and the school, the senior class of 1949 gratefully dedicates this yearbook to——

MR. HALSEY'S MESSAGE

A good high school should be a living laboratory for developing civic competence by providing innumerable instances for students to undertake and carry through activities which are useful to the student community. Such jobs involve responsibility for the operation of slide and film projectors,campaigning for election of Student Council officers, collecting clothing for the "Save The Children Federation," serving as health assistants in the health office, arranging the materials in the school display case, acting as members of the stage crew, helping construct the scenery for the Senior Play, performing the numerous duties of the Hall Patrol, preparing refreshments for various Teas, acting as Library assistants, assisting in preparing the Regionalogue, Dayton News, and graduation program. Many other productive activities could be added to this list.

Knowledge about the history of our country and talking about the problems of citizenship will not alone make good citizens. It is important that the development of the budding citizen be taken beyond the talking stage into action. Most of the activities as practiced at Regional High School provide students with the kinds of skills they will later need as citizens.

My best wishes to every member of the Class of 1949. May the useful activities which you learned in high school be helpful in the broader aspects of practical citizenship.

W. W. HALSEY, *Supervising Principal*

CLASS OFFICERS

JAMES SAFFERY
President

Jim was born that memorable day of October 6, 1931. Since then he has worked his way up with his wit and his friendliness to all, until now he is the president of our Senior Class. Jim has taken an active part in school activities and is on the road to great success.

CHARLES FLECK
Vice President

Behind the blush and smile, Charlie still had the qualities and poularity needed to be elected to the office of Vice President in his Junior year. He did so well that the students were behind him, and again for the election of '48-'49, they were proud to have him as one of their last class officers.

THOMAS RILE
Treasurer

Shy and dependable and a necessary cog in the functioning of our Senior Class is Tom, a boy who appreciates a good joke—and good serious thinking. Keeping us out of the red has been quite a job but Tommy was good at adding the pluses where needed, instead of the minuses.

JOAN O'LEARY
Secretary

When Joan first sat down with pen and paper in hand it was for her Junior homeroom. This experience provided the foundation for the job she had this year and carried out so aptly.

SENIOR FACULTY GAME

It finally happened. The Surprise of the year— —but was it basketball? It was in the gym, a basketball was used, referees could be found, baskets were in their usual places, a pep rally preceded the big game but—it seemed and looked like a circus.

Coach Hart, wearing a vaguely familiar tan jacket, gave a pep talk for her "fine team" and introduced the co-captains, Mrs. Lehner and Miss Kelly, from whom she expected "bigger and better things next year."

Then the game—has Regional's gym ever been so packed! The Women's game offered the laughs with health check-ups (by Dr. Mason and Nurse Gants), magazine reading, paper correcting, orange juice, step ladders, Ken Belliveau's aid, football tactics, tickling, throat spraying during time-outs. Sophisticated water-boy Mrs. Cassak, and assistant Miss Benfer along with our hawaiian—old fashioned bathers—cheerleaders Miss MacCarthy, Miss Romano, Miss Crawford and Mrs. Montgomery highlighted the comedy of the afternoon. Score (incidental, of course) 19-18, favor of Senior girls.

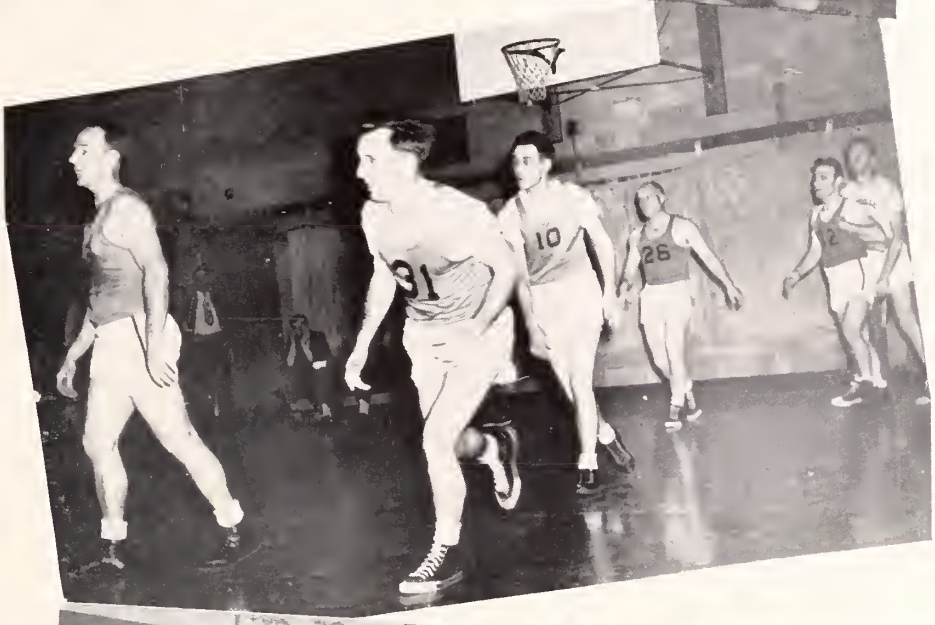

Coach Caprio's Team roughhoused through the senior football team in vain (Seniors 24-8). We understand there were 7 faculty members in the game for a while.

Where could we find better entertainment for a small quarter?

Plough right through that line!

Only 5 ! or is it a track met ?

Well, Ref, doesn't that call for a foul? (for the faculty, of-course)

Lucille and Dick solving a predicament—ahem!

The Senior Class Play

Regional High School
Springfield, N. J.
April 8-9, 1949

Dear Ruth,

Our sympathies were with you in your predicament. Miriam and Harold were enough without the unexpected arrival of Lt. Bill Seawright—from that point on we dropped our sympathies for envy. Martha, too, blundered into a happy ending. We have never had quite as enjoyable an evening as we spent at the Wilkens's home.

We shall never forget the Judge's cryptic remarks, his wife's cool understanding, Miriam's drinking spree, page 32, the Teddy bear, lilacs, subways, and just plain nice people.

Thanks loads for a really super evening,

Sincerely,

The Audience, 100% strong

Our understudies: J. Sippell, L. Salvatoriello for J. Nash, T. Hughes, A. Riker, N. Garrick, E. Leonard, S. Casale as Judge Wilkens performing the ceremony.

All important make-up before curtain call
C. Nye, D. Morrison, A. Moore, M. Sukovich

Arlette gets A in letter-writting and A for raising Dick's morale.

The Wilkens's maid and another of Miriam's correspondents—A. Palumbo, C. Schadle.

We're going to get married! L. Hopkins, J. Saffery

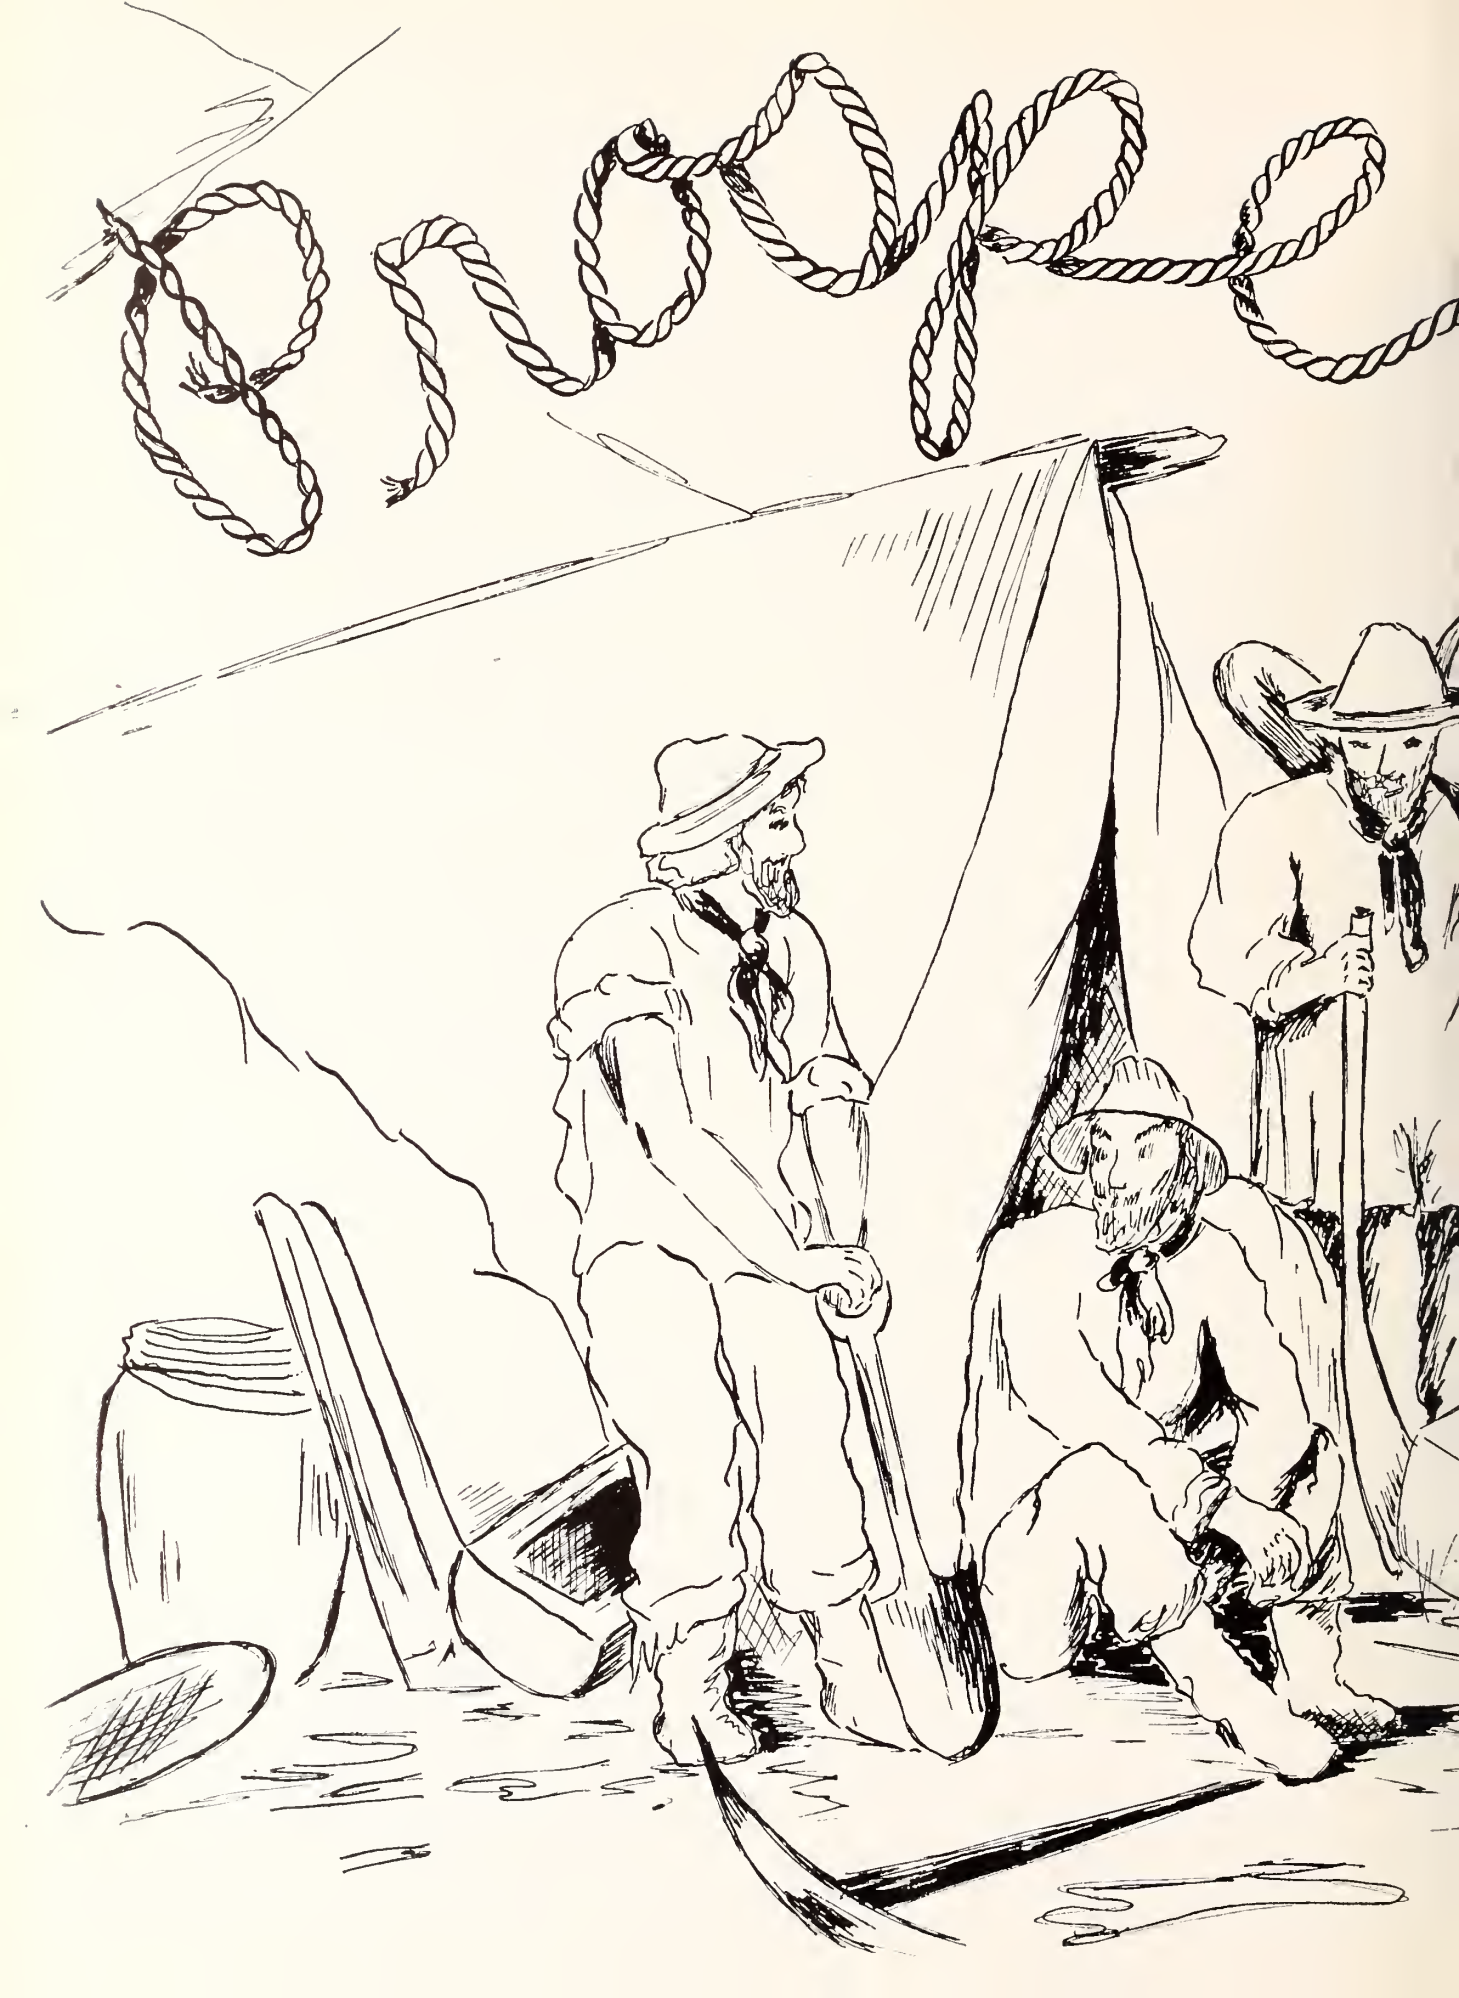

Pushed off the subway—a likely story! Morrison, Pollack, Rein.

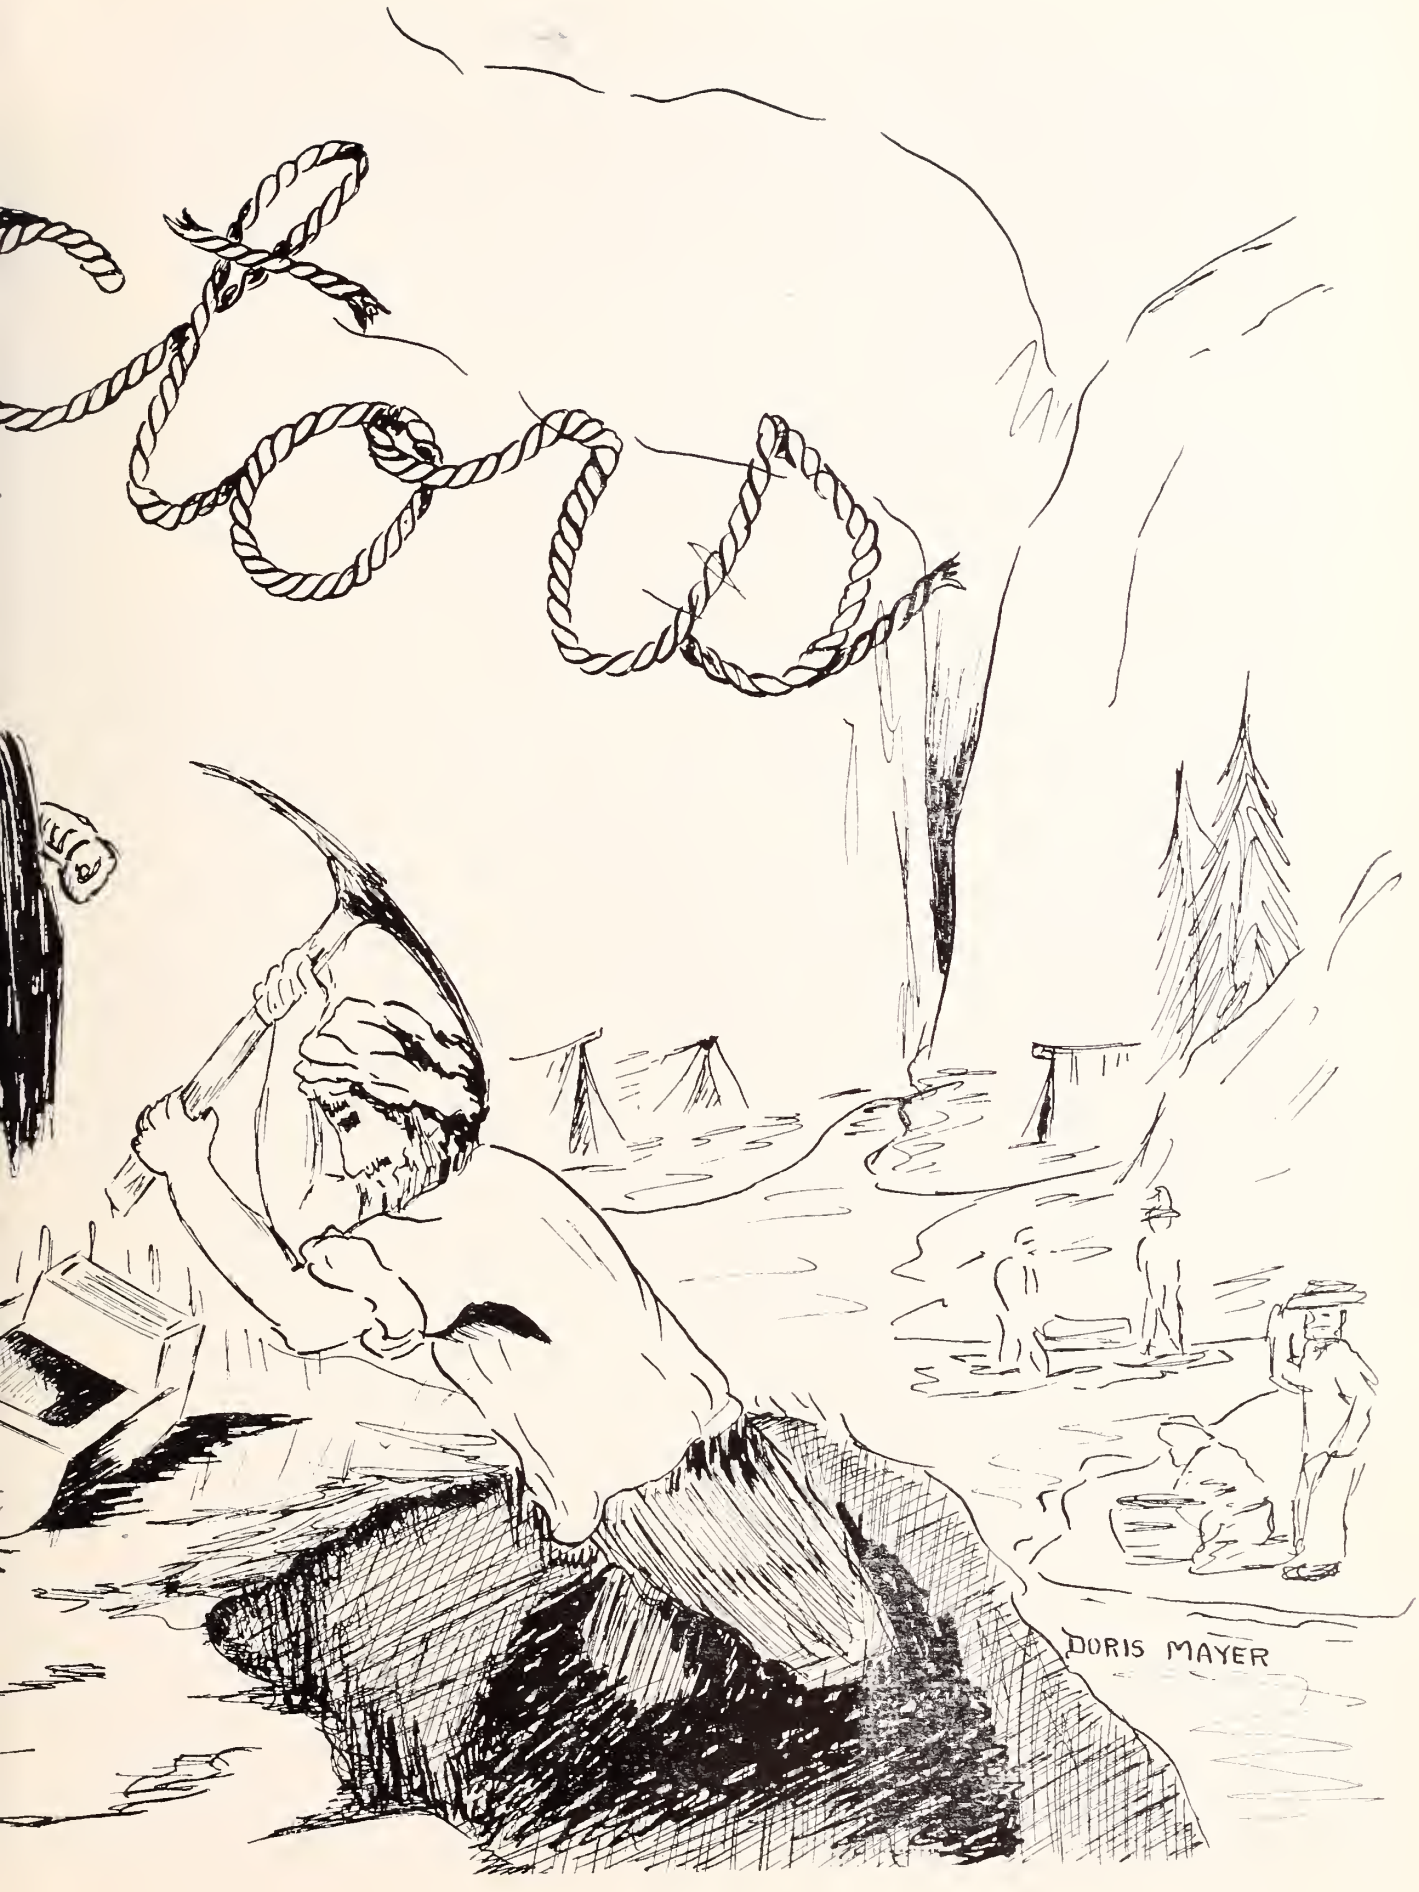

Miriam, not 66 letters—or was it poems? A. Moore, M. Rein, L. Salvatoriello, D. Morrison

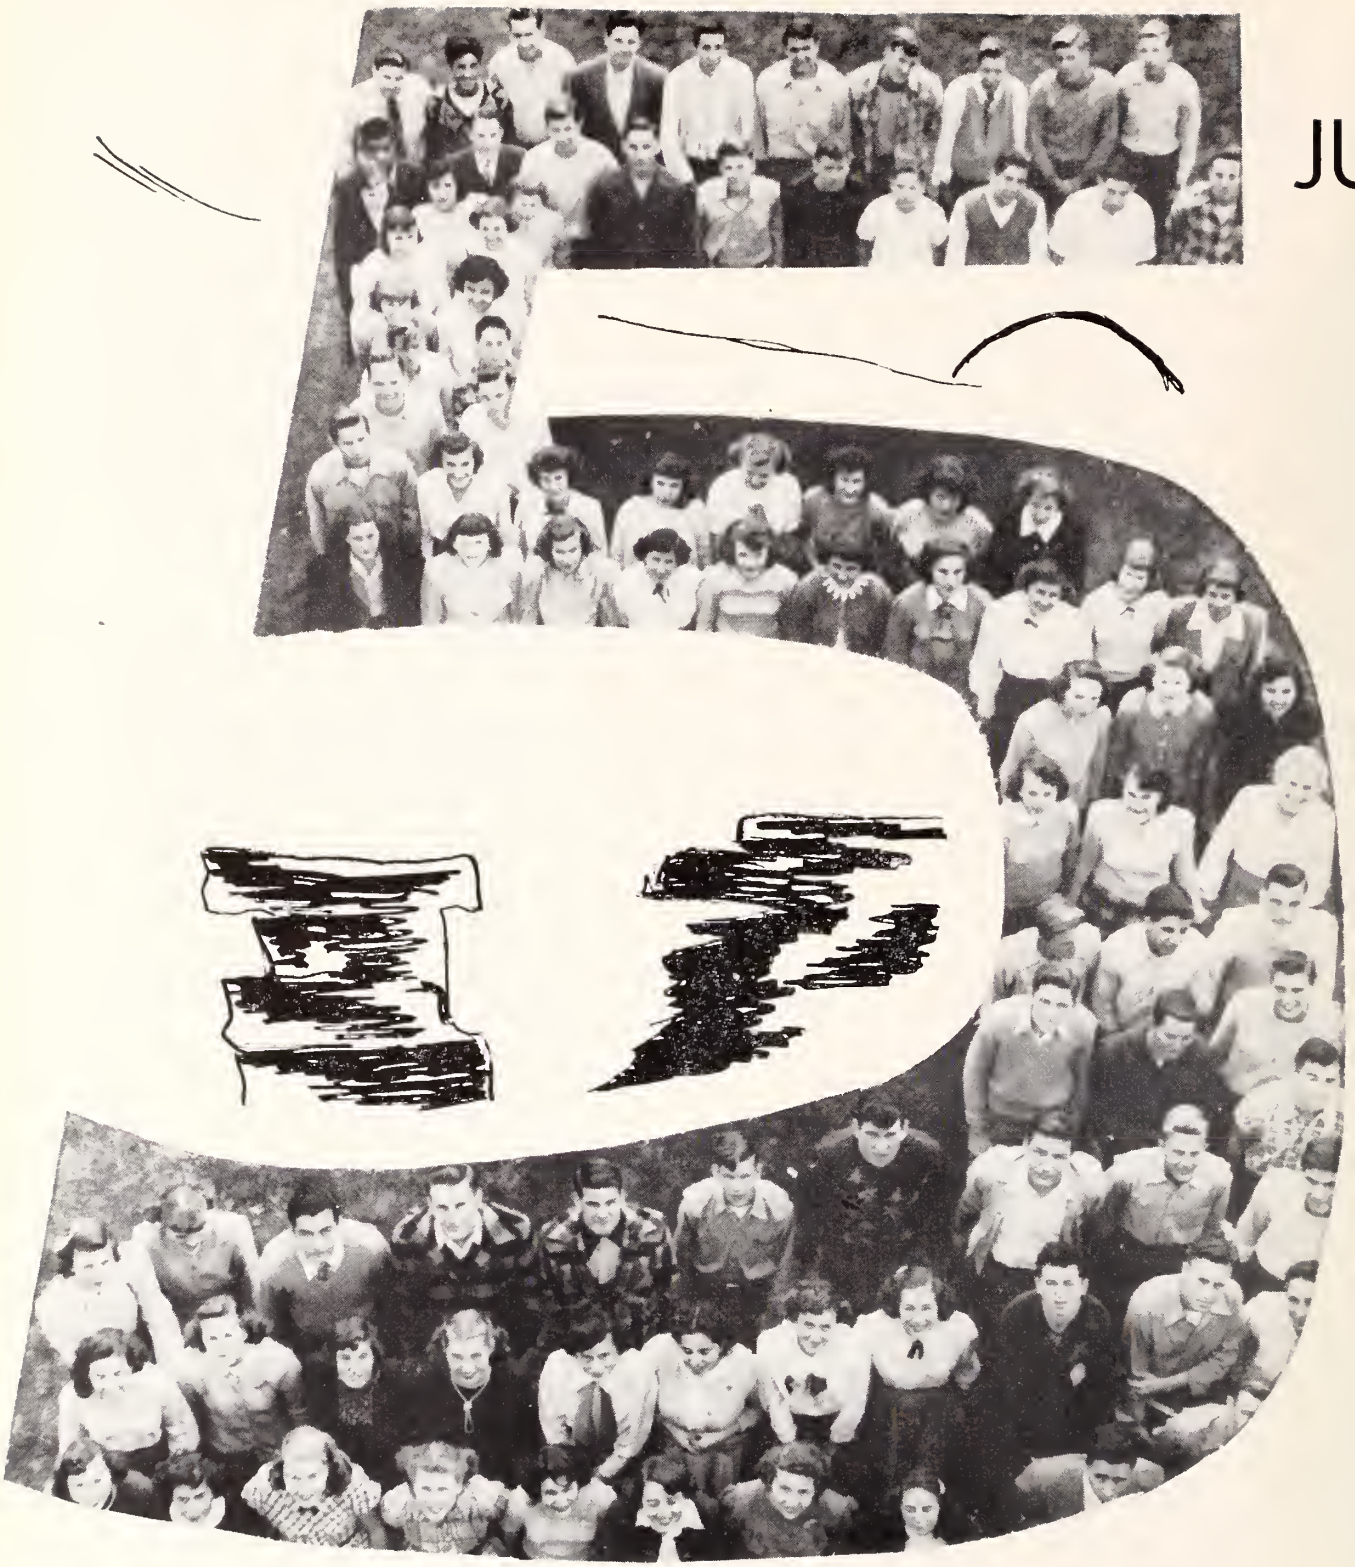

Stage crew and play committee chairmen: P. Smolley, E. Corsaky, F. Hafner, R. Twyman, C. Nye, D. Hansen, E. Galloway.

ART DEPARTMENT

Those famous posters that drew the forty-niners west can be credited to our art department. After succeeding in getting them there, our artists helped to design the prospectors' wives' clothes, made oil paintings of the leaders, designed the lay-outs of their new homes, taught the prospectors the importance of color, design, and arrangements. They're responsible for prettying the dance halls for all our square dances, and making the attractive sketches in the local newspaper and "logue" of the prospectors. We found them essential in our four years of travel, settling down, mining, and leisure time activities.

HOME ECONOMICS

Clothing in the modern Home Economics curriculum (and we follow that plan) teaches the fundamental facts regarding the selection of materials and the making of clothes; the proper care of clothing; the artisic, healthful, and economic features of clothing. Teaching clothing to high school students proceeds with the assumption that a girl should make what she needs rather than regular yearly projects.

The foods laboratory is equipped with the newest electric and gas ranges, refrigerator, freezer, and mixmaster. The students in their practical work learn the best methods with modern equipment. Advanced classes prepare a faculty luncheon twice a month, and have complete charge of planning, buying, cooking and serving the meal.

Home Management classes emphasize house care, budgeting, buying, child care and family relationships. Each student plans and furnishes a "dream house" by way of floor plans, cut outs and color charts.

LANGUAGES

Do you prefer Spanish ?

Amo, amas, amat—aha!—no, that's not part of the conjugation, but if you have had any experience with Latin, you will realize what this is all about. Prospectors have tried to master a foreign language—either Spanish, French, or Latin, and with some little difficulty too. Besides this mastery of the speech, they learn about the people—their customs, dress, manner, culture—transporting the prospector out of his world of mining and into a strange and wonderful foreign land as glistening as his gold mines. The pride one feels to be able to casually say, "Como esta Usted," or "Vale," or "Como tale vous?"

Latin ?

or French ?

"Macbeth" Shakespearean stage too.

The prospectors have found gold in literature. Great classics and modern writings are read, discussed and enjoyed. Sharpening the tools of grammar and composition is a necessity for all forty-niners in their search for fame and fortune. Trips are made to the centers of the literary and theatre world to enhance their true appreciation of fine works.

SCIENCE DEPARTMENT

A student experiment

One can always tell that our Science Department is busy by the various explosions, strange and mysterious odors, and the frequent escapes of certain "creatures" in 213.

You can always tell a Chem and Physics' student by the large, bulky packages they carry to class once every six weeks. We sometimes wonder what's going on in the spring and fall when cer-

The freshman is introduced to Regional's field of Science by the General Science Class. Here they learn how the world goes around and also future knowledge to help them in other Science classes.

The gold found at the end of this rainbow will be beneficial to all the forty-niners in some way or another.

THE COMMERCIAL DEPARTMENT

A true business atmosphere

The forty-niners that graduate from the commercial department are prepared to go on to further schooling or to set forth in the world and seek their fortune. The commercial department equips the student from his freshman year to his Senior year. The riggers and outfitters supply the tools and machines needed for searching for that gold mine. It divides into two branches: secretarial and accounting. Emphasis is put on developing the prospectors into courteous well-behaved young ladies and gentlemen. Much of this is due to the friendliness and helpfulness of the riggers.

History moves into
R.H.S. Halls

U. S. History Class

We're living in such an important time in history that regardless of the course in social studies a big stress is put on current affairs with retrospective phases into the pages of past years. Trips to the U. N., court houses, museums, conventions—participation in local conferences, broadcasts, forums, and debates—art projects and visual aids are all big factors in making our social studies department a vital program to all students. We act, hear, and discuss our historic moments.

FUTURE FARMERS OF AMERICA

The motto of the F.F.A. consists of only four lines, but these lines are filled with practical philosophy, reflecting a spirit and sincerity that shows the true viewpoint of farm youth, the "backbone of a nation." The Motto is as follows:

Learning To Do
Doing To Learn
Earning To Live
Living To Serve

It is with this motto that the boys of the Agriculture Department at Regional strive to better themselves both mentally and physically.

The F. F. A. is an integral part of the program of vocational education in agriculture both at Regional and throughout the public school system of America.

The Future Farmer not only learns to become a good farmer but through active participation

F. F. A. meeting

learns to conduct and take part in a public meeting; to speak in public; to buy and sell cooperatively; to solve his problems; to finance himself; and to assume civic responsibility. The foundation upon which the Future Farmers of America organization is built, includes leadership, cooperation, service, thrift, scholarship, improved agriculture, organized recreation, citzenship and patriotism.

All F. F. A. activities are boy-initiated and boy-directed. Results attained, therefore, are due to farmer-training objectives set up and carried out by the boys themselves. Cooperation, group thinking, and purposeful action are displayed in all programs of work. Where would the forty-niners be without the farmers?

WOODCRAFT

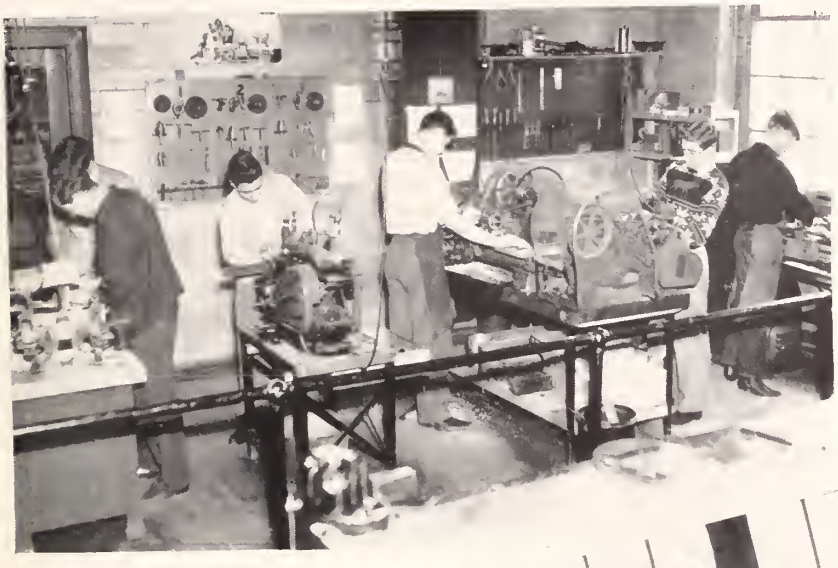

Wait 'til summer comes around !

Our prospectors really learn how to manipulate and take care of their tools in our shops. In the wood shop, most of the furniture for the forty-niners new homes were made — and the actual tools for building their homes were produced by the metal shop. Printing of any necessary material to make the work of the prospectors easier and known to the public was done again by the men seeking their fortune in R.H.S. The work of our world would have been impossible without these workers and their skills.

SPEECH AND DRAMATICS

Where do I sign up for Dramatics?

Hear those horrifying screams and strange rantings? We must be near Room 14 and Miss Mac. Right! — senior dramatics class rehearsing for a nice quiet murder mystery for next week's assembly. Those piercing screams and odd dialects could not be so professionally done if it weren't for that earlier work in phonetics, speech correction, and dialect study learned in previous speech courses. The forty-niners' big play of the year owes part of its huge success to the training from these work groups.

MOVIE AND STAGE CREW

BACKROW: D. Morrison, K. Condit, S. Hart, R. Smith, T. Rile, R. Schroeder, K. Gulcher. FRONT ROW: J. Kelly, J. Saffery, A. Wahl, W. Maholly, J. Rutscher, D. Doolan, H. Dunn, R. Bartkus, L. Sawyer.

Of the many groups that are responsible for the success of Regional, the stage and movie crew are important ones.

The stage crew isn't often seen as they do their job during assemblies. They are responsible for the lighting on the stage and in the auditorium. You'll find them working hard during scenes of a play when the changing of scenery is required and whenever the stage must be cleared they are on the job.

The movie crew makes it possible for us to see movies in Assembly and in our class. The boys alternate in showing the films and their job is important too.

MATH DEPARTMENT

Draw a geometric figure

Our civilization is based on numbers. The development of labor saving machinery and our modern engineering marvels, such as bridges and sky scrapers would have been impossible without large numbers of men trained in mathematics. The factory worker, professional man, office employee, house wife, and store clerk all need mathematic skills to carry on their daily activities. Through a variety of courses Regionalites are made aware that mathematics is one of those "fundamental skills" necessary for existence in a civilized land.

How could the prospectors count and weigh gold without this knowledge?

Field Math.

DAYTON NEWS

And the next issue must be planned

A hush falls over the room—faces peer out over a newspaper—Dayton News day! Nothing is overlooked—sports events, social news, honor rolls, school gossip, problems of the world, assembly news, information on the progress of the yearbook, senior play, new books in the library, honors given to students, faculty sketches, a questionnaire of the month—a true necessity to any democratic organizations—a free newspaper—our Dayton News fills that need.

GUIDANCE OFFICE

Worried about what course you should be taking, your marks, or college entrance requirements? Room 11 is where you should be—there's Miss Kraft and some counselors waiting to help you. All prospectors have at least two conferences a year and more, if little problems arise which need ironing out. The alumni find the guidance office a valuable place for receiving recommendations, records of grades, character traits, and test statistics.

Minor casualties of the day

Have you ever been hit with a baseball or any other hard object? Do you have headaches, feeling low, or by chance did you have measles? Well, even if you were so lucky to have missed these delights, you did get round to visiting R. H. S. health office for your physical, teeth check-up, eye test, hearing test, and for admission slips after illnesses. Well equipped, modern, essential for the welfare of our school body, our health department and Mrs. Montgomery, and reliable girl assistants, do a remarkable job of keeping the prospectors and the outfitters and riggers on the job.

LIBRARY

Library Council

Even the forty-niners feel the need for quiet relaxation, which they may find among the many books in the library. Through the efforts of Miss Dimmers, the Head Librarian and with the help of the Library Council many new books have been added to the collection of books already in the library. The quiet and relaxation afforded by our library comes as a welcome relief after a day of panning for gold.

CHORAL GROUPS

Our Choristers

It's hard to recognize our prospectors garbed in their white and black robes etched in red after seeing them daily in their mining clothes. Nevertheless, their talent is not as hard to recognize as is true gold. Their Christmas and Spring Concerts are the big musicals of the year. Folks flock from all the surrounding mining towns to hear the famed choir, ensemble, glee club, and double-male quartet. Our local parent group is entertained frequently by them, besides the local assemblies and Baccaulaureate service. The State Choir Festival in May is the incentive for tedious practices and results show two of the members, Phyllis Smolley and Don Morrison, making the All-State-Chorus for three years.

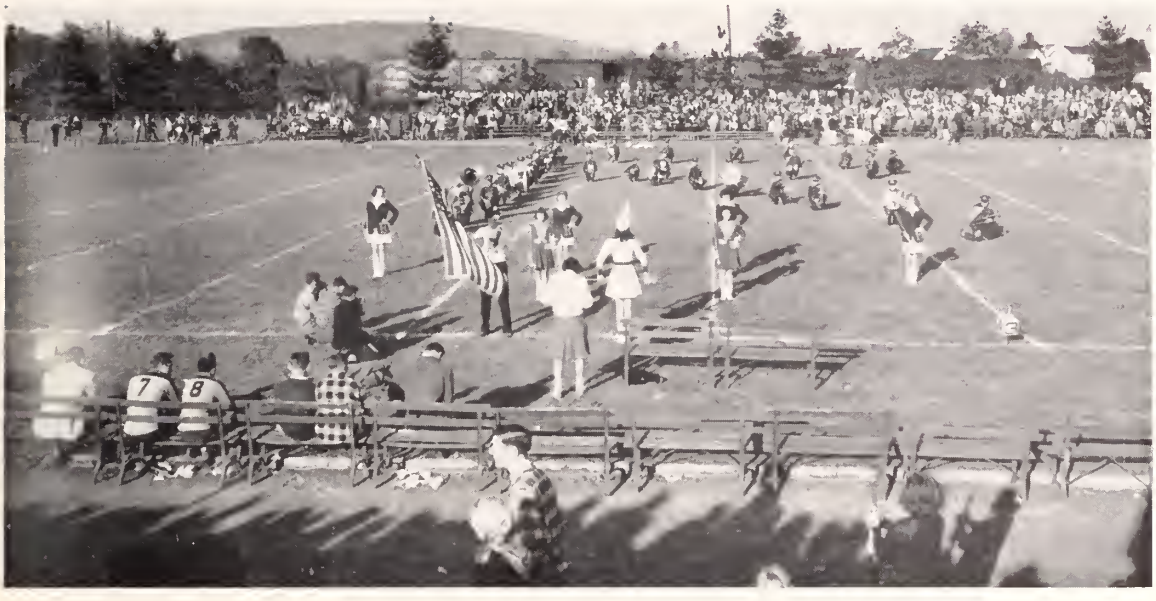

THE FAMOUS DOUBLE MALE QUARTET

ENSEMBLE

BAND, MAJORETTES

The stirring marches played by our band and the vivaciousness of our drum majorettes and cheerleaders have been two of the main factors in keeping up the moral of the forty-niners. We would like to thank Mr.Russette for the time and energy he devotes to make our football games and assemblies more lively. And, as if that weren't enough, he has managed to stake a claim for new band uniforms. Nancy Garrick heads one of the best twirling squads Regional has seen in a long time.

Snappy, eh?

HALL PATROL

Vigilantes —

What is that glittering metal that catches your eye as you walk down the hall? Is it that long sought for gold? No, it is the orange and blue button denoting hall patrol—vigilantes of Regional's law.

Under the careful guidance of Miss Midkiff, Regional's Hall Patrol has made a fine record this year. Yes, Regional can boast of a fine hall patrol, helping people learn to respect school regulations. Fine, Vigilantes, keep up the good work!

OUR LEGISLATORS

THE HONORED ONES

STUDENT COUNCIL

The Student Council aims to solve student problems. Faculty-student meetings of four teachers, four students and Mr. Halsey are a new procedure this year.

Among the various activities sponsored by the Student Council are the P.-T.A. Drive, a Hallowe'en Jamboree, Dues Card Membership, The March of Dimes, and an annual fifty dollar scholarship. The Clothing Drive for the Save the Children Federation was very successful.

A conference was held this year, to which members of other school councils were invited to "air their views" concerning student problems.

Frank Calderaro, a member of our Student Council, was elected a member of the State executive Committee.

Working with the advisers, Mrs. Gants and Mr. Scott, and the students, the Student Council does a grand job of keeping the student-faculty relationship smooth.

The officers are: President, Edythe Pieper; Vice-President, Ray De Bergeois; Secretary, Alice Monahan; Treasurer, Joan Grate.

HONOR SOCIETY

Here are forty-niners who have found that gold —that is those who have been high enough in rating to have been selected for membership in the "Honor Society," a National organization of Secondary Schools.

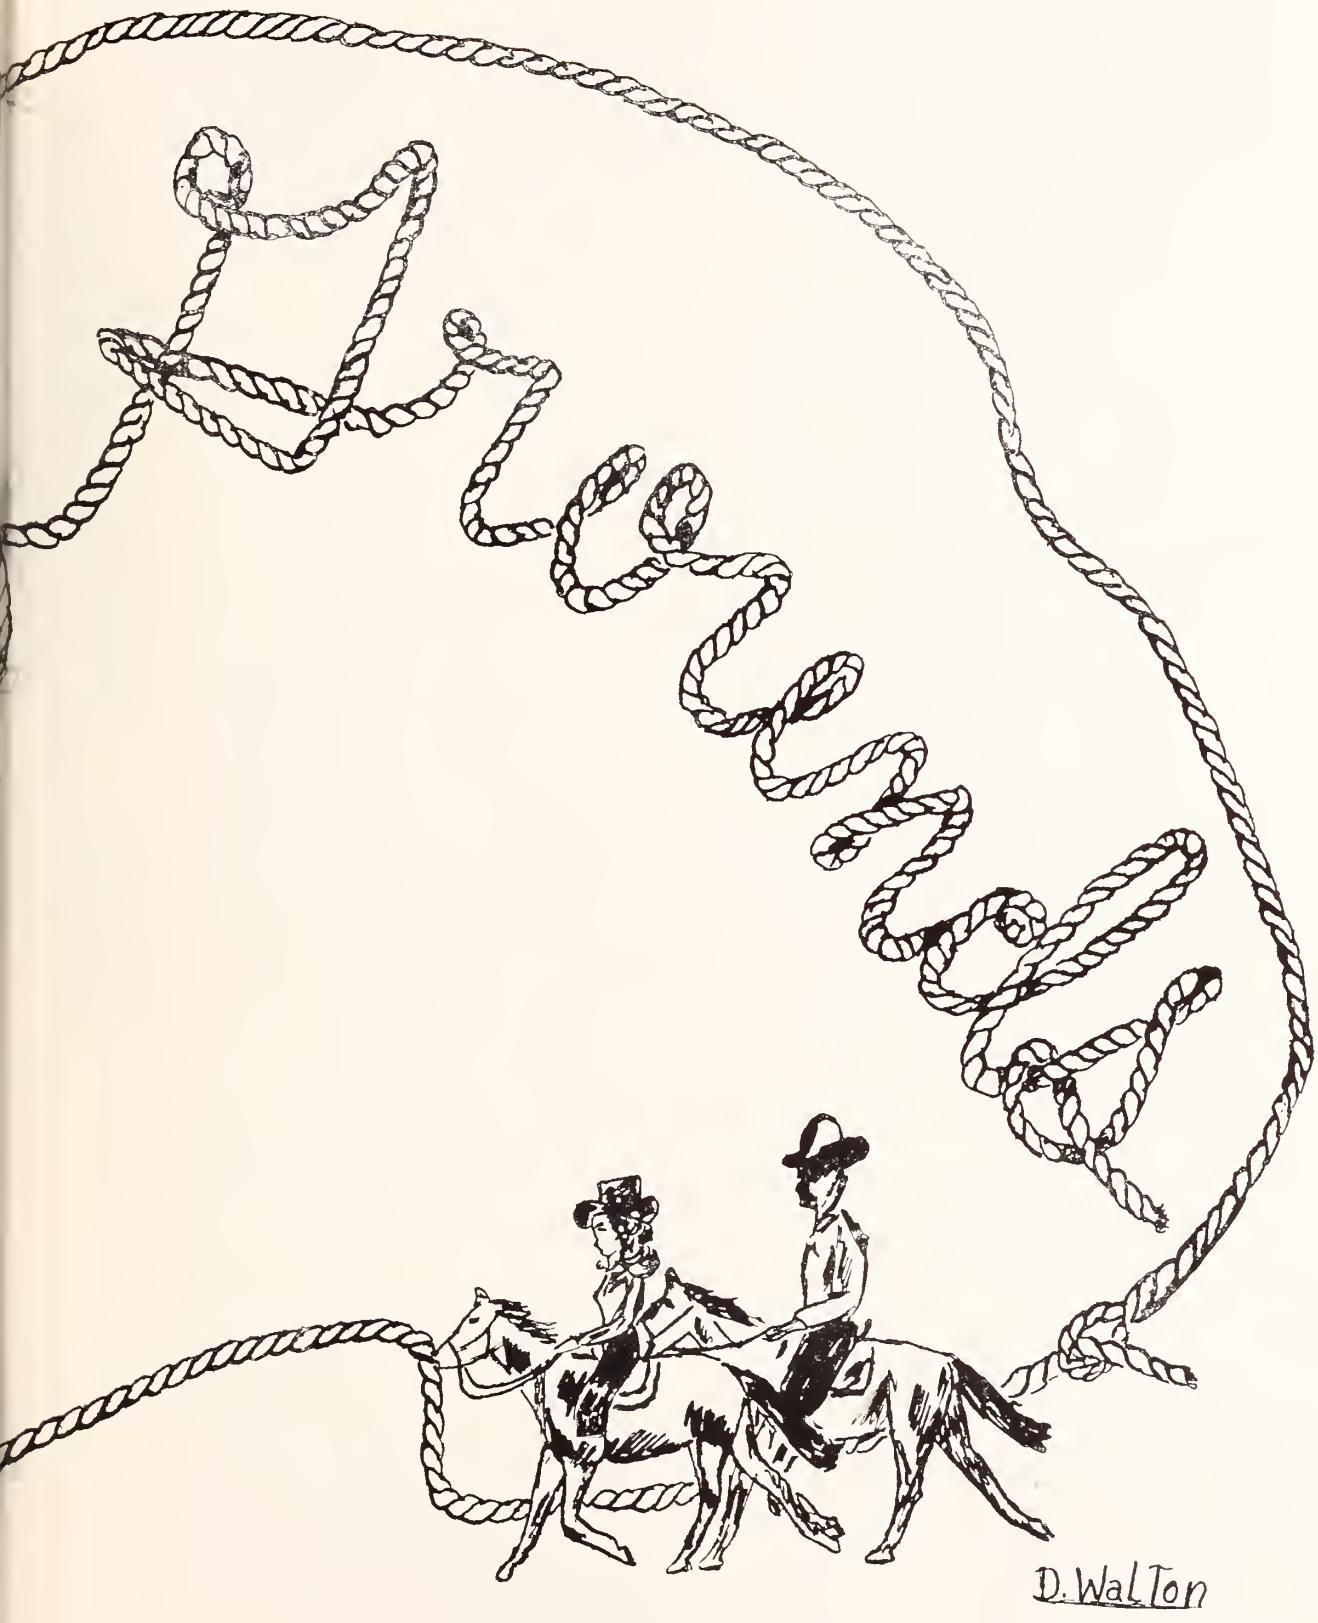

The purpose of this Society is to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership, and to encourage the development of character.

Efforts have been made to increase scholarships for the further training of our forty-niners by awarding prizes to the deserving boy or girl in the following subjects: English, foreign languages, social studies, mathematics and science, and commercial subjects.

The Honor Society also does a great deal of relief work—such as clothing drives and the sponsoring of a school in the southern part of the United States.

This group maintains a high standard which we hope to see many more of our prospectors reach.

Regional High's basketball squad ended up on the winning side of the book again this year. The squad compiled a record of eleven wins against ten losses. This was a very good record, considering the big rebuilding job necessary. Only one senior was lost to the team this year. The starting five will all be back with a good reserve squad to boot. John Murray and Ken Belliveau were the big guns of the team, both boys high scorers in most of the games.

Regional High's grapplers finished their season with a record of five wins against three loses. Having scored victories over the Alumni, Jefferson, Rahway, Bound Brook, and Somerville, they were subdued by three outstanding teams, Washington, Roselle Park and Union. The mainstays of the squad were Scarpone, Hoesley, Davis, Allcroft, Doolan, and De Berjeois. GIRLS' HOCKEY

Senior and Junior Teams

When "fall" came so came the girl's hockey teams. Twice a week behind the school the girls could be found with shin guards and sticks charging down the field after a little ball. Injuries and minor casualties occurred often, but the girls battled on. The four teams, freshmen, sophomore, junior, and Senior, played various schools in the surrounding territory. And Regional, usually, came out on the winning side. Regional was also proud that Bunny Michel made all state first team.

BASKETBALL

Varsity Squads

The girl's basketball teams came shining through again this year. Practices were held two nights a week for the Juniors and Seniors and the other for the Freshmen and Sophomores. Before school on Wednesday was held open to all classes for practice. Games were played with Madison, Hillside, Scotch Plains, Cranford and North Plainfield. Needless to say the Regional girls generally won. This type of intra-school playing not only gave the girls a chance to show their talents but also acquainted them with other schools and girls of other schools.

CHEERLEADING CLUB

Fight, Team Fight

The girls in this club put all their effort and vitality into practicing cheers. In the hearts of all these girls is the hope that they will become a future cheerleader of Regional High School. They practice year round and at the nearing of the school year a few are selected to lead the cheers at the games. No wonder our cheerleaders are so superb, with all this drill, practice, and keen competition.

MODERN AND SOCIAL DANCING

Up 2,3,4—doun 2, 3, 4—Yes, it's modern dancing. The girls work hard to learn the rhythm and steps to perform a beautiful dance. The enjoyment is always there along with new skills in grace and added poise. For more practical use, social dance with its fox trot, rhumba, and jazz are taught to the combined physical education classes—g'wan, fellas, we know you like it.

Who will ever forget the Junior Prom—Regional's EVENT of the year? Night Life in New York has nothing on our Junior Prom. Beautiful gowns, soft lights, and the hit tunes of the year helped to make the evening complete. Without the Prom our year at Regional would not be complete.

MAY QUEEN DANCE

All of us at Regional look forward to the May Dance, sponsored by the Student Council. The highlight of this dance is the crowning of the Mayqueen with her four attendants, making the pretty picture complete. Jackie Nordlin was our queen attended by Loris Ann Winkler, Mary Ann Kubowitz, Jeanne Selander and Mary Pepe.
